**Subject:** Cari, Today is the LAST DAY to get your \$600 in Bitcoin

Here is a set of videos about CloudToken, and how you can make a million this year....

So IF YOU HAVE NOT DONE SO ALREADY at the \$1200 or the \$600 level, you may enter your information in the link below.

We are partnered with a new crypto-wallet and hedge fund.

The hedge fund is giving away \$600 worth of Bitcoin per account that joins between now and Sunday.

(ONLY ONE PER HOUSEHOLD)

This is a VERY limited time offer, there are no strings, they only request that you leave your bitcoin in your wallet for a minimum of 6 months.

The bitcoin will earn interest from the A.I. trading/arbitrage tech, to the tune of about 10% on average per month.

You make take the interest, but please leave the principle in the wallet.

If you would like to participate in this, there is ZERO risk to you and this is NOT an investment, and we only ask that you don't take the principle for 6 months.

Enter your details into this website and we will send you your login credentials. You can change your login credentials once you receive access to the account.

Hurry, this will not last long. Feel free to send this to your friends and family, we have until the end of TODAY.

Also, we will be doing a training on how to make \$1 million USD in the next 12 months with this...

I am urging you not to be a piker and let this pass you by.....it costs you NOTHING and you have nothing to risk. Don't let your bullshit fear keep holding you back from prosperity. You aren't that weak....

Here is the compensation plan: [https://www.youtube.com/watch?v=r26\\_yEPiNKQ](https://www.youtube.com/watch?v=r26_yEPiNKQ)

Remember, we FIX CREDIT and FUND PEOPLE into your downline....but only if you join.

Sincerely,

Jeff Sokol
