I understand your concern about getting paid. I assure and guarantee you that 101 % you'll be getting your payment. I'm also a human here, working for my own family, I know the feeling if we're not gonna be paid when we work. If you've seen some posts like that from our company, it's just those people who wants to ruin the name of our company. They didn't do their job properly, as they have lost packages, some were stolen, and it's a big loss for our company, we don't want our company to get down because of those people. That's why, of course, I hope you understand, we need to remove them as they dont have any proof of shipments done that we can verify. And also, we won't be able to work with Fedex, Ups, USPS and other well known stores here in the US if we're not legit So if I were you, ship out the package today so your payment will not be delayed for few more days, because as you know, we have estimated time of waiting for payment to be processed and I dont want you to wait longer than that. - Ora Mullins

Hi Angela, if you can find a way to ship this package, then it'll be a great help. As when you ship this package today, your payment will be processed by accounting, because upon checking it's on hold because of this unshipped package. Please let me know - Ora Mullins

I have no gas to take any package, I'm broke to do anything, I was praying on getting paid and I haven't yet. I'm 13 weeks pregnant and I have a 2 year old. Once I'm paid I'll be able to finish the job, I've been doing a good job this whole month and I love what I do so please work with me because I have rent and Bill's due

Good morning Angela, I did a review on your dashboard. your pay date is 18th of April. It just so happen that you still have possession of packages that needs to be shipped for accounting to be able on creating an invoice for your payment. Label for package ID 53375 is already generated, so ship it out immediately, so we can process your payment. If you have packages without any labels yet, we're doing our best to contact our customer so we can provide you the shipping label for you to ship it out. We appreciate your patience. So I want to set your expectations, that first payment normally takes 24-48 hours for it be cleared/transferred from your payment date but making sure all packages already sent. That is just for the first month but for the following months you don't have to wait for your payment as it will be transferred automatically in your account. Please reply here to confirm to ship the package with label today. Thank you and have a good day. - Ora Mullins

Hi Angela, good morning. I understand how much you wanted to get more packages. But to inform you, due to the corona virus, we're getting low volume of packages. But we're trying to get more orders and add tasks for you. Hopefully when everything get back to normal, we'll be sending you more packages. Thank you - Ora Mullins

Hi Angela, upon checking, it's still requested as well on our end as we're not the one who generates label. We appreciate your patience, kindly continue checking the label availability so you can ship the package immediately. Thank you. Keep safe and stay healthy. - Ora Mullins

Hi Angela, you don't have to pay for anything. Upload the actual item photos on your dashboard. Then, download the label on your dashboard. Label is already funded by the company all you need to do is go to the Carrier, drop off the package and ask for receipt. Upload the receipt photo once done with the shipment. That's all you need to do. As I said, no expenses. Hope it's clear. I tried calling you twice, it's routing me to voicemail - Ora Mullins

03/19/20, 22:25

Hi, I have my package all ready to ship out, and I was wondering how I do that, I called but no one has returned my calls. I don't have money to pay to get it shipped out so I need help please.

---

03/19/20, 21:02

Hi Angela, good morning. How come you got wrong labels? All you have to do is download the shipping labels from your dashboard and ship the package out? I'm confused on you saying you "ordered wrong shipping labels?". Let me know. Have a nice day. Thank you - Ora Mullins

---

03/19/20, 12:17

So I ordered the wrong shipping labels, and have to buy some tomorrow to ship out the order? Is that fine, this is still my first doing all this so I don't want to mess up.

---

03/19/20, 06:41

Hi Angela, mostly packages that needs to be repacked are those broken, but you can use same box for packages if it's not broken, just make sure to remove any warning stickers, old shipping label and invoice/packing list if there's one before you ship out the package. In regards with labels, the labels are being generated on your dashboard per packages so you'll just have to wait and check for that all the time, as we're not the one who generates label. Thank you - Ora Mullins

---

03/19/20, 00:28

How do I know what box to repack the order in and, and do you guys send me the shipping label or do I have to figure out what shipping label to print out?

---

03/18/20, 23:25

You're welcome

---

03/18/20, 18:43
