We wish to inform you that your payment for the flight ticket was confirmed and your Puppy is currently in **TEXAS TX** ready to take a Flight to your location on the 10th at **7727 Strathmoore Rd Dublin, Ohio 43016**

Your **Puppy** has been checked at the Pets quarantine Department and all the registrations papers, health certificates and passport are correct .

Due to a Rapid rise in the number of COVID 19 cases, there has been an increase in protection from the health department in order to ensure the safety of the people handling your puppy.

Also Due to the age of the **Puppy**, you are required to Rent (Hire) a different **CRATE** for the safe delivery of your puppy,

**Reasons for a change of Crate !!**

**1: The Delivery crate of the Puppies has to be changed from a Ventilated crate to an Electronic Thermal Crate . The ventilated crate does not contain potty pet space, water bowl and food cane .**

**2: The crate is too small for the relaxation of the Puppies on the flight . Due to the above reasons, the crate has to be changed from a ventilated crate to an Electronic Thermal Crate.**

**3: We are experiencing an unfavorable weather condition and transporting the Puppies in the ventilated crate will be detrimental to the health of your Puppy Coupled with the Covid19 pandemic, the thermal crate helps to maintain social distancing in the delivery process since we deliver so many animals.**

**4: We need a Thermal Electronic crate during this period of shipping because it has a **TEMPERATURE REGULATOR** which will be regulated according to your Puppies body**

**temperament there by maintaining a constant body temperature**

**From the above reasons, the Puppy cannot be transported in the original crate. The crate has to be changed and we have to use an Electronic Thermal crate to ensure the safety of the Puppies on the**

**flight to your location. We have these crates in our agency in  
different varieties and PD**

(power drive ). Here are the various available Electronic  
Thermal crates listed below:

Thermal Electronic crate 0150 PD-----\$2000

**\*Thermal Electronic crate 088 PD -----\$1500**

Thermal Electronic crate 030 PD -----\$1000

We do not sell the crate to our customers but we offer them for hire or rental terms to safeguards your puppy on flight. The money paid for the rental of the crate will be **100% Fully Refunded Back** to you by the delivery agent who will come to deliver your puppy at your address. Since the sender sent the puppy using a ventilated crate, when you will be picking up the pets at the airport or if the delivery agent will be doing the delivery at your address, he/she will come along with the Ventilated crate, to do the changes and have your money paid back either cash or by check. We request that you make a choice from the above list of crates and choose the type of crate you will like your puppy to travel in, for safety.

***DUE TO THE TEMPERAMENT OF YOUR PUPPY, WE ADVICE THAT YOU USE THE 088 PD***

**Note: The higher the PD, the more safety and guarantee the puppies are on the flight.**

**We are waiting on your swift response on which crate to use so we can provide you with the company's details for payment.  
We want you to treat this as a matter of urgency.**

[Cashier details for payment:](#)

Cashier 1:

The money should be paid using our cashiers details below through  
Apple pay;

**Google pay**  
**keithjonese@gmail.com**

Once payment is made, email us a screenshot of confirmation so we  
can proceed.

**Cashier2:**

The money should be paid using our cashiers details below through  
ZELLE;

Email....Pam.jones2x@gmail.com

Name.....Pamela Jones

Amount....\$1500

Once payment is made, email us a screenshot of confirmation so  
we can proceed.

**Cashier3:**

Below is our cash app payment details. If you do not have a cash app, you can download the app  
PLEASE NOTE: To make sure the payment is gonna go through, you must have the funds on your cash app Cash  
Balance before forwarding to our cash app details below. So if you don't know how to add cash to your cash app
