Pls kindly wait more days.As usual, it takes 15-20 working days to arrive after shipping. As you know, the transportation environment is complicated and the speed of shipping can't be controlled.

The parcel arrived in your country. We are really sorry for our delay, as we all know of the global outbreak. There are too many parcels that have been stuck in the logistics warehouse. pls wait a few more days, the international tracking number is 92612927005484000001036401. Pls wait for the local update. You could check the parcel through the USPS website.
