

## **Summary of Investigation: Melanie Rose William**

We initiated and completed an investigation into a woman named “Melanie Rose William” who allegedly has a date of birth of December 26<sup>th</sup>, 1989 and was born in Northville, Michigan. We found **no record** of an official person by this name and date of birth living in the United States, and we conclude that this is a case of false identity.

### **Official Records Investigation**

We conducted a comprehensive search through all major databases, which revealed there is **no record** of anyone living in the United States or Canada matching the identification criteria of “Melanie Rose William” who allegedly has a date of birth of December 26th, 1989 and who was born in Northville, Michigan. However, we researched all of the information provided by the client in order to determine if any of it was accurate. We also searched for possible alias names and variations of the data provided, which also yielded no result.

### **AI Image Search**

We conducted a comprehensive AI Image search using facial recognition search websites and the pictures provided of the subject from our client.

Our investigation revealed that all of the pictures that the client has received are actually of a woman named “Ivy Snow” and “Ivy Jean” who is an adult film star and cam girl. We found that she is very active online on various adult websites.

We are unable to determine the adult star’s real name, but we found a posting online saying that her image is being used by African scammers (source: <https://romancescamsnow.com/tags/ivy-jean-porn-star/>). Details are as follows:

## Passport Analysis

We analyzed the passport of the subject provided, which we have determined to be a fake passport. Upon first inspection, it is evident that the typography of the name, date of birth, and place of birth has been changed and does not match the font or typography of the rest of the information.

Furthermore, the picture appears to have been photoshopped in. We looked closely at the photograph in the fake passport and compared it to a photograph in a copy of a real passport. Upon close inspection, one can see how the security lines in the background of the picture in the

fake passport are not as consistent as the security lines should be in a real passport. Because of these factors and the information about the fake identity already mentioned, we have confirmed that this is a copy of a fake passport.

## Social Media Investigation and Internet Search

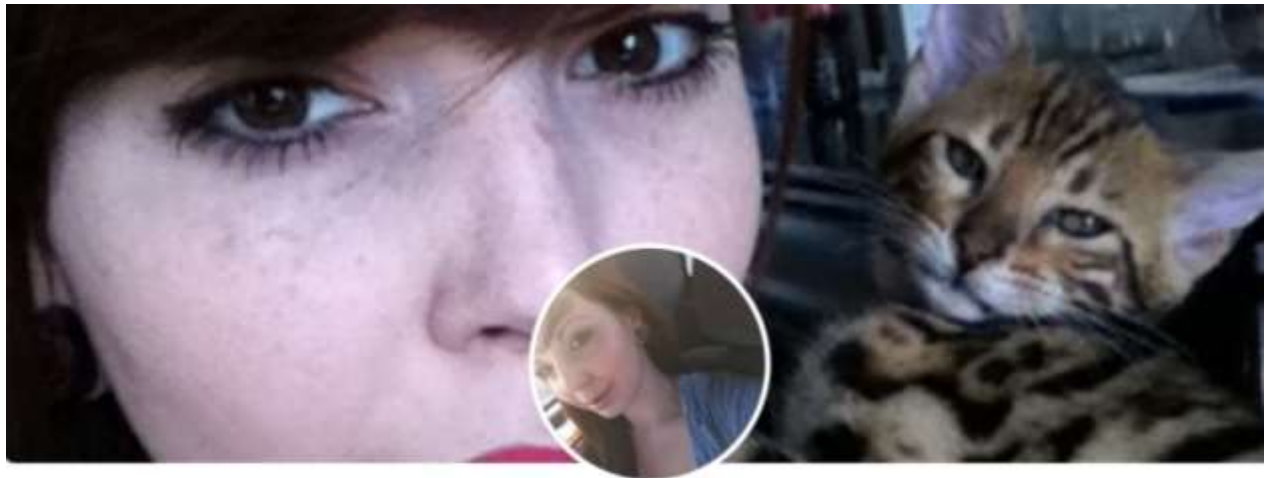

We conducted a comprehensive social media investigation and internet search, which revealed online fake profiles for the person claiming to be “Melanie Rose William”. We found **one (1) record** of a fake Facebook profile in her name, but we determined that this profile was false based on analysis of information found in the profile. Details are as follows:

### **Fake Facebook Profile**

Source: <https://www.facebook.com/murtala.abubakar.1044>

We found a fake Facebook profile for the subject, screenshots of which are included below. There are several ways of identifying that this is a fake profile. First, the URL link of most people’s Facebook account contains their real name. In this case, the URL link (listed above) contains a name that is “Murtala Abubakar”. This is a male African name, and it indicates that this is the real name of the person who set up this profile. Secondly, we noticed that all of the Likes and Interests on her profile are in a non-English language, which is a red flag. Finally we found that someone using the profile commented on an African page in a non-English language. For these reasons, our analysis determined that this profile, and her identity, is fake.
