

FUNDRAISING PROPOSAL

Project Summary

Project Title: Feed 50 street children In Bangladesh

Project Duration: May 2021-May 2022

Total Budget: \$18,000

Target Group: 4-10 years boys and girls

Name: MD WAZID HOSSAIN
Email: synergycharity@gmail.com
Web: facebook.com/synergy4charity
Phone: +8801687844456

Who We Are?

We are a community based organization named "[Synergy Charity Foundation](#)" It is situated at Dhaka, Bangladesh. This organization consists of 10 members and Wazid Hossain is the founder of this organization. All the members of this foundation are students. We have not registered yet but soon we will be an enlisted organization.

What We Do?

We visit rural and urban street areas of Dhaka City. We seek for hungry street children for feeding. We also feed women who can't beg alms for sickness. We divide into a group (each group consists of 2 members) to visit these areas. In a bag we carry nutritious foods. We distribute foods among poor and hunger. Last time we fed 50 street children & women at Savar Zone.

Our Future Mission

We work for humanity and our mission is to give rights to the poor and helpless. We want to overcome hunger among street children. We also want to meet the demand of nutrition that poor don't get. Our first mission is to finish the project properly. Then we will register our organization. If we get support we will be an enlisted charity foundation.

Why Fund Is Needed?

We find no way raising funds from the people around us. In covid-19 many had loss in their business and many lost their jobs. In this circumstances, we cannot do campaign for fundraising. Even some people will think that we are doing cheat or fraud. All these things make us very disappointed. So we are willing your support for our charity organization.

The Use Of Funds

Purposes	Amount In BDT/USD
Food Cost (Nutritious Foods) \$1USD= 85BDT	Food costs \$1 per head \$1x50=\$50 Daily \$50x30=\$1500 Monthly \$1500x12=\$18000 Yearly

N:B We have included vehicle rent & volunteer's salary at \$1 cost.

Project Outcome

We expect that we can remove hunger and malnutrition issues from our locality with the help of this project. Many children involve in child labor for feeding. If they get food, they will remain healthy. Even hunger keeps children away from learning (2nd basic human rights). Many children are being addicted to take drugs when they suffer from biting hunger.

Sincerely Yours

MD Wazid Hossain
