Scheme of Work

- Receive packages using your own address;
- Unpack and examine incoming shipments;
- Forward packages using uploaded pre-paid shipping labels;
- Maintain accurate records of items shipped and received.

Key Accountabilities

1. (70%) Plan and co-ordinate transportation of materials and manage the timely flow of customer orders. While adhering to policies, procedures and regulatory requirements, facilitate the shipping and/or receiving of products to and from the stores on behalf of

customers. This would include organizing either the shipping or receipt of product or the preparation for delivery of product to and from the facility with focus on accuracy, efficiency and time management. Managing the flow of orders requires strong reliance on monitoring and co-ordination of delivery pickup and/or drop off schedules both manually and with computer programs.

2. (30%) Provide and maintain good customer service and solve problems.

As an integral part of the team, ensure that customers are highly regarded and receive exceptional service throughout the flow of order processing, including preparing loads for shipment and managing the inbound and outbound warehouse traffic. Address problems with order flow or shipping delays and quality-control issues, such as damaged or improperly packed goods, as well as day-to-day concerns with warehouse capacity and client deadlines. May include face-to-face, phone or email interactions with customers.

Qualifications

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily.
