My name is Timothy Jackson and I ordered the 5g foldable phone order number N202112090121878154

Now I ordered it from janshop.co.uk and not only have I not received my order yet they waited until I received a pair of headphones and emailed them, to tell me their out of stock and that was a whole month later. I don't know how your associated with them but if so talk to your people I did want the phone but since they failed to respond I just want my money back. And I hope your not part of their fraudulent actions or behavior. At 64 and disabled with cancer I dont need this stress so anything you can do will be greatly appreciated. Because I'm going after everybody involved from janshop.co.uk to Facebook for allowing crooked businesses advertise on their website.
