

to me ▾

Hello! Thank you for your patience - I am just returning to town from a family emergency. I hope you are still interested and I'm not too late getting back to you. Everything is in working order, and there are no electrical, mechanical, or structural issues. The condition of the interior is good. Starts up fine and runs throughout the day, with no service or warning lights, as indicated in the description and shown in the pictures. The Owner's Manual and service records are available on request, and it has a clean and clear title with no liens on the asset. Priced for quick sale, please see the link here for pictures and specs: <https://www.motorstradegroup.com/inventory/239205/> You can see the boat at the Motors Trade Group warehouse (I'm assuming you know Motors Trade Group). We left the boat on the lot there because we got a great deal on a new one and keeping both is not an option. Due to the COVID-19 pandemic, we also prefer not to meet in person, so we have made a consignment agreement with Motors Trade Group for the sale. All you have to do for inspection, pick-up, and payment is contact Motors Trade Group and set up an appointment time. You can find all the contact info on their website [contact us](#) section - just give them my name as the seller and they'll take it from there. If this all sounds good to you, go ahead and go to their website and request a purchase, then fill out the [buyer registration](#) form with all the requested information. An invoice will be issued to you within 24 hours or less, which should contain all the details you need regarding the transaction (i.e., insurance, shipping, bill of sale, etc.). Basically all you need to know about your purchase. That's pretty much it, the online purchase process is that simple. There is also a 7-day money-back guarantee, which allows you to try the boat and return it before you've even paid for it. It has been pre-inspected by a Motors Trade Group representative on-site who can answer any questions you may have. All of this info can also be found on the website if you need to refer to it and have lost this message - just go to the [How it Works](#) page, they'll do an even better job than I have explaining it all. Please let me know if you have any questions or if I can assist any further!

--

*Respectfully*  
*Greg Hedding*
