11:08

Hello, after a system query, you currently have an asset [4000USDT] that has not paid the corresponding in-app purchase deposit. Since you are making an in-app purchase, you need to pay the in-app purchase deposit [1000USDT] using the invitation code, which can be paid directly to your (my) account. After the payment is completed, the system will automatically unlock your account withdrawal limit. At that time, you can handle all withdrawals, and your in-app purchase deposit [1000USDT] will be returned to you. You can withdraw cash at the same time, but you need to complete the in-app purchase deposit payment within [48 hours]. Please know that I wish you a happy life, thank you!

ITAMAR GOMES DE SOUSA

11:12

as? I deposited 1650 dollars, and had an income. I was not informed of paying application

ITAMAR GOMES DE SOUSA

11:13

there is something,

After the payment is completed, the system will automatically unlock your account withdrawal limit.

ITAMAR GOMES DE SOUSA 11:15

I already invested \$1650, and the asset grew, so why not pay me

 Avatar Coin 11:16

And the deposit of 1000USDT will be in your account as funds which can be traded and withdrawn as well.

ITAMAR GOMES DE SOUSA 11:16

I do not believe that

ITAMAR GOMES DE SOUSA 11:17

what guarantee will I have that this will be fulfilled

ITAMAR GOMES DE SOUSA 11:17

I was not informed of this payment before

ITAMAR GOMES DE SOUSA 11:20

hi

 Avatar Coin 11:22

After inquiry, you were invited by user but not directly invited by the platform to make internal purchases so that there is the fee need to be charged for using the internal financial institution code which was not directly given by CNBIT

ITAMAR GOMES DE SOUSA 11:27

I don't understand, and I ask for the return of my deposits

 Avatar Coin 11:28

After the payment is completed, the system will automatically unlock your account withdrawal limit.

ITAMAR GOMES DE SOUSA

11:31

How much is the down payment

 avatar Coin

11:32

Hello, after a system query, you currently have an asset [4000USDT] that has not paid the corresponding in-app purchase deposit.
