Hello,

Can you please give me an update on my order status? Other than this email, I have not received a notification of any kind. It's been almost 2 weeks, and I haven't even received a shipping update.

Hmm. We're having trouble finding that site.

We can't connect to the server at tadamia.shop.

If that address is correct, here are three other things you can try:

- Try again later.
- Check your network connection.
- If you are connected but behind a firewall, check that Firefox has permission to access the Web.
