

Alright, Before we proceed further into the Job briefing detail and requirements few questionnaire for the Interview session part ..A swift response is required shall we begin with get started?

Our operating system dramatically changed due to COVID-19.... HR managers are not hosting video interview screening again due to (Multi-tasking, Messy Apartment, Poor body Language, Background noise and unstable internet).

We would be doing the interview via ZoomChat because I am multi-tasking multiple interviews at the same time which I believe won't be a problem ?
