Website Popularity

No data found due to low traffic volume.

The Alexa rank is used to measure the website popularity, it works best for US websites.

A rank lower than 500,000 means the site has a reasonable amount of traffic.

Domain Creation Date

The domain name was created only 9 days ago.

A domain name created only a few months ago may be a little suspicious to buy from.

A too new website means that almost no one has bought something from it yet.

I would not buy something from a website created less than 3 months ago.

HTTPS Connection

The website uses a valid HTTPS connection.

A secure encrypted connection (HTTPS) is a must for e-commerce websites and online shops.

HTTPS connection ensures that when you insert sensitive data, all the traffic is encrypted.

An e-commerce website that does not use HTTPS connection is suspicious.

🔗 Let's Encrypt offers free SSL certificates (<https://letsencrypt.org/>).

Hosting Provider
