How does it work?

- 2). Buyer pays eBay; The Buyer submits the payment to eBay. When the payment is received, it will be verified and secured into one of our trust accounts. Payment validation process usually takes less than 12 hours.
- 3). eBay starts the shipping process; Upon payment validation we will initiate the shipping process. We will verify if the buyer receives the vehicle. The inspection period begins once the vehicle is delivered.
- 4). Buyer receives the vehicle; The Buyer receives the vehicle and has 5 days to inspect it. The inspection period begins once the vehicle is delivered. If it's completed and as described, the Buyer should accept the vehicle.
- 5). eBay pays the seller; After the inspection period is over, the Buyer must contact us with the result of the inspection. If the vehicle is accepted, eBay submits the payment directly to the Seller within 24 hours. Verify an order's eligibility!

eBay sends an invoice to a buyer only after our Financial Department verifies the following information:

- Paperwork of the vehicle, including ownership and title;
- Seller's information and proof of ID;
- The vehicle conditions. Our mechanics inspect the vehicle to make sure it matches with the seller's description. We do not initiate any transaction if the vehicle is not what the seller says it is.
- Possession of the vehicle being sold. We do not initiate any transaction until we have the vehicle stored in our warehouse with all the paperwork.

eBay uses the latest data encryption and anti-fraud technology to keep your information secure, reducing the risk of online fraud. We can guarantee 100% protection and insurance in this transaction and you have a 5 day inspection period before releasing the payment to the seller. eBay will secure the payment until you receive, inspect and accept the vehicle. The Buyer is fully insured: at any time and without any explanation, he can ask for a full refund. The refund processing time is less than 48 hours.
