

ORDER SELECTOR

POSITION IN DETAIL

If you have already gone over the POSITION SUMMARY file, and still have questions about Winroze and Order Selector, you might be interested in the following section.

Winroze offer third-party shipping services to both domestic and foreign clients. We also offer other enterprise solutions to businesses. As a pioneer in the field, Winroze is regarded as the industry leader in the third-party shipping solutions industry. We boast a huge network of carriers around the country and proudly serve clients from over forty warehouses.

If you think third-party shipping and order fulfillment are straightforward, we ask that you think again! In the booming field of e-commerce, it is the order fulfillment service that can make all the difference and can help a merchant stand out and gain more profit. This is what we offer our clients when we implement a vast network of distributed warehouses.

A distributed warehouse is ANY household that is transformed to accept individual orders for small and medium sized businesses. Processing their products through regular warehouses can be frustrating since their businesses do not operate at a large scale and items are often lost or handled carelessly. We take great care in grooming our warehouse operators so that they can provide the best possible service to our customers.

The concept of a distributed warehouse has proven to be very popular among our customers. In order to cope with increasing demand, we are expanding in your area and are offering you the chance to turn your house into a highly functional warehouse and get adequately rewarded in the process. Don't worry about oversized packages, as our Artificial Intelligence (AI) powered system will only assign you packages that don't exceed 50 lbs in weight. We will train you from A to Z, and no prior experience is necessary.

You run your Distributed Warehouse from 9am to 5pm your local time, Monday through Friday. You report directly to your curator. We promote a healthy work-life balance and offer certain flexibility as long as you return the favor in an equitable manner. You start with a 30-day probationary period. Your primary objective during that time is to learn as much as you can about what our customers expect of our service and to show how quickly you can master the INs and OUTs of the position. Your curator will be providing weekly reports on your performance and guiding you through every step.
