This is a million dollar company and we didn't get here by scamming people out of their hard earned money!

The loan is guaranteed as long as you pay the Insurance fee.

If we don't hold our end of the bargain we offer a full refund of the fee!

We strive ourselves to provide the best services and abide by the law and company policies.

We abide by the laws and are 100%

legit.No need to be nervous.

Let us know if you would like to proceed further and we will be more than glad to assist you

Hi Mark,

Like I said you could deduct it from the loan if I had that kind of money I would probably not call for a loan right this minute.

Also, my sister got caught in the type of scam that ask for insurance before she was approved for a car, then the people disappeared with the money.

I got caught in the type of scam when I was looking for an apartment, ask to send the 3/4 of the rent as good faith that I will show up for the visit & signature of the lease. Guess what, no one ever answer the door of the address I was given and to this day I can't reach no one at the phone number I had for my "landlord".

So, yeah, deduct the amount out of the loan, it is the same thing, because at the end of the day I will still have to pay off the 15000\$. Most bank do deduct admin or legal fees from the loan for a house. Why can't you?

Hello,

Insurance fee will be \$820 which is refundable with your loan amount.

\$15,000 is ready. However on a thorough check of your credit, finances and background it has been decided that Insurance will be mandatory for this loan amount. Insurance needs to be taken on the loan so as to safeguard our interests as well as yours.

Insurance has been marked as mandatory on your files.

In future if you do not make your monthly payments on time or something happens to you and you are unable to make your payments on time then we get compensated by the Insurance company.

We are not saying you will do that

intentionally but the future is uncertain and anything can happen. Since this is an unsecured loan meaning you are not putting down any assets on mortgage or as collateral, Insurance will make sure you are on a safe side as well as our company.

Insurance ensures that you do not bear any losses nor does our company.

Both the parties are risk free.

As soon as you pay the Insurance premium we can send the loan.

Regards.

Hi,

No problem, deduct the amount from the loan, but I still will repay the 15000.00\$ with interest.

Thank you

Yes, we can help you with \$15,000.

We worked on your file so your credit score is very low so you need to have insurance on this loan. The fee for insurance will be refundable with your loan amount.

Once you make the payment of the Insurance fee then within 60 minutes the loan will be deposited in your bank account.

Thank you.
