Hi Invisibrush Team,

I'm writing again to follow up on my Nano-Clean order which I placed our UGC collaboration. I previously reached out on Sunday regarding the shipment status, but I have not received a reply or tracking details.

It has now been well over the 2–3 week delivery window stated in our agreement, and I would appreciate a prompt update. If my order has not been shipped yet, I would like to understand the reason and request a resolution as soon as possible.

I'm still open and committed to completing the collaboration, but I do need confirmation on what's happening to proceed with confidence.

Regards,
